PROFESSIONAL SUMMARY

MSc Data Science student at the University of Edinburgh with a B.E. in Computer Engineering (Honours in Data Science), combining experience in software development, data and machine learning projects, and technical leadership. Experienced in developing digital solutions, troubleshooting technical issues, coordinating teams and delivering projects in fast-paced environments. Strong communicator with a practical, user-focused approach to technology and problem-solving.

EDUCATION

The University of Edinburgh — Edinburgh, UK

MSc Data Science | 2026–2027

Don Bosco Institute of Technology — Mumbai, India

B.E. Computer Engineering (Honours in Data Science) | 2022–2026 | CGPA: 9.32/10

RELEVANT EXPERIENCE

Web Developer Intern — Computer Department, Don Bosco Institute of Technology

Aug 2023 – Jul 2024 | Mumbai, India

- Developed and maintained the Computer Department website, implementing content updates, front-end improvements and usability enhancements.
- Worked with faculty and IT staff to understand requirements and implement reliable web solutions.
- Investigated and resolved website issues while maintaining accuracy, consistency and functionality.
- Managed ongoing website updates and improvements throughout the academic year.

Mentor — Teknack 2026, Don Bosco Institute of Technology

Dec 2025 – Mar 2026 | Mumbai, India

- Mentored student teams through game development projects, providing guidance on programming, debugging, design and project execution.
- Conducted project reviews and provided technical feedback throughout development.
- Supported teams in maintaining structured workflows and resolving technical challenges

Technical Secretary — Student Council, Don Bosco Institute of Technology

Aug 2024 – Jul 2025 | Mumbai, India

- Coordinated technical workshops, seminars, competitions and student initiatives supporting engagement across 1,000+ students.
- Managed digital initiatives and technical infrastructure in collaboration with students, faculty and technical teams.
- Supported planning, communication and problem-solving across multiple concurrent activities.

Senior Coordinator — Euphoria 2026: Urban Echoes, Don Bosco Institute of Technology

Oct 2025 – Feb 2026 | Mumbai, India

- Led planning and execution of a large-scale university festival across technical, operational and logistical activities.
- Coordinated cross-functional teams responsible for scheduling, registrations, branding, hospitality and technical infrastructure.
- Managed real-time operational issues and competing priorities during live events.

PROJECTS

Unified NL Interface for Automating System Commands & Advanced DevOps Tasks

InnoQuest 2024 — 1st Place | Presented at ITC4S'D 2025 | Springer Proceedings

- Developed a natural-language interface capable of translating user queries into executable system-level and DevOps commands.
- Designed command parsing, validation and execution workflows to simplify complex multi-step operations.
- Focused on reliable command execution, structured processing and reducing manual command-line complexity.

LUMEN — Intelligent Vision System for Navigation Assistance

B.E. Major Project / Research-Oriented System

- Developed a real-time computer vision system designed to assist visually impaired users with navigation.
- Implemented object detection and contextual awareness to provide relevant environmental feedback.
- Focused on inference optimisation and low-latency processing for practical real-time deployment.

Resumatic — Online Resume Builder

InnoQuest 2023 — 3rd Place

- Developed a web-based resume builder with customisable templates, structured forms and real-time CV preview functionality.
- Designed the system to generate consistent professional output through structured data collection and formatting.
- Combined front-end development with database-backed functionality.

TECHNICAL SKILLS

Programming: Python, C++, JavaScript, SQL
Web Development: HTML, CSS, React.js, Node.js, Express.js
Data & Machine Learning: Pandas, Scikit-learn, Streamlit
Tools & Platforms: Git, GitHub, Firebase
Core Skills: Web Development, Debugging, Technical Troubleshooting, Data Analysis, Project Coordination
